

Pratiksha Manik Patil

Address: Erlangen, Germany

Phone: +49 15567 049069

Email: patil.pratiksha.work@gmail.com

LinkedIn: linkedin.com/in/pratikshaa1216

German: B2 | Work Authorization: Germany

Data Scientist and Data Analyst with 3+ years of experience in machine learning, automated data pipelines, BI, and Generative AI across industry and research. Skilled in Python, SQL, Snowflake, Azure, and Microsoft Power Platform, delivering solutions for 2,000+ users. ICDAR 2026 third-place winner and international conference presenter, completing an M.Sc. in Artificial Intelligence at FAU in October 2026.

EXPERIENCE

Schaeffler Group

Data Analyst Intern

Erlangen, Germany

Jul 2026 – Present

- Integrate HR data from **SAP SuccessFactors**, **Excel**, **SharePoint**, and **SQL** sources to create reliable datasets for workforce analytics and reporting.
- Develop automated **Azure Data Factory** ETL/ELT pipelines and manage structured data across **Azure Data Lake Storage** and **Azure Synapse Analytics**.
- Clean, validate, and transform more than **200,000 HR records** using **Python**, **SQL**, and **PySpark**, improving data quality and enabling statistical analysis of workforce trends, anomalies, and key drivers.
- Perform exploratory and statistical analysis to identify workforce trends, anomalies, and key drivers, supporting predictive analytics and data-driven HR decisions.
- Build interactive **Power BI** dashboards and **DAX** measures to monitor workforce KPIs and support reporting for more than **3,000 employees**.

Siemens Healthineers

Data Scientist and Data Analyst – Intern & Working Student

Erlangen, Germany

May 2023 – Jul 2026

- Built **Power BI** dashboards with live data connections, delivering business insights to more than **1,000 users** across multiple departments.
- Engineered automated **Snowflake** data pipelines using **Python** and **SQL**, reducing data redundancy by **18%** and saving approximately **eight hours per week**.
- Developed internal applications using **Power Apps** and **Power Automate**, connecting three teams and streamlining processes for more than **2,000 users**.
- Developed an AI-assisted research solution using **Copilot Studio**, **Power Automate**, and **SharePoint**, with automated validation, JSON reporting, request tracking, and PII-free data storage.
- Evaluated an internal **RAG chatbot**, identifying hallucinations in **55%** of evaluated responses and conducting structured error analysis to uncover recurring failure patterns.

Machine Learning and Data Analytics Lab, FAU Erlangen–Nürnberg

Student Research Assistant

Erlangen, Germany

Nov 2023 – Apr 2026

- Contributed to end-to-end **machine learning projects**, including data preprocessing, exploratory and statistical analysis, model training, and evaluation using **F1-score** and **PR-AUC**.
- Developed reproducible **Python evaluation pipelines**, implemented data-validation and preprocessing rules, and documented model comparisons and experimental findings in structured reports.

Infineon Technologies

Data Scientist – Working Student

Munich, Germany

Jan 2023 – Apr 2023

- Developed a freight-train **ETA prediction model** in **Python** using **AWS SageMaker**, achieving **91% punctuality accuracy** and a mean absolute error of **12 minutes**.
- Processed **28 million records**, automated the machine learning workflow using **Kubernetes**, and built **Power BI** dashboards for delay, route, and data-quality analysis.

EDUCATION

FAU Erlangen–Nürnberg, Erlangen, Germany

M.Sc. Artificial Intelligence

Oct 2022 – Expected Oct 2026

University of Mumbai, Mumbai, India

B.E. Computer Science

Aug 2018 – Jul 2022

SKILLS

- Programming & Analytics:** Python, SQL, PySpark, Pandas, NumPy, Statistical Analysis
- Machine Learning & AI:** Regression, Classification, Feature Engineering, Deep Learning, Computer Vision, NLP
- Generative AI:** LLMs, RAG, Prompt Engineering, Azure OpenAI, ChromaDB
- BI & Visualization:** Power BI, Excel, Tableau
- Data Engineering & Cloud:** ETL/ELT, Snowflake, Microsoft Azure, AWS
- Engineering & Business Tools:** Git, Docker, Kubernetes, FastAPI, CI/CD, Power Apps, Jira, Confluence, Power Automate, SharePoint

ACHIEVEMENTS

ICDAR 2026 TROGS-26 Competition – Greek Inscription Recognition

2026

Achieved **3rd place**, co-authored a paper published in the ICDAR 2026 proceedings, and presented the work at the international conference in Austria.

Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)

2026

Earned the Microsoft Fabric Analytics Engineer Associate certification.
